

ANODYNE

OUR MANIFESTO

IT SEEMS EVERYWHERE WE GO, NO MATTER THE
OCCASION, WE'RE YEARNING FOR A SENSE OF RELIEF.

A comfort in where we stand. And for many of us, it's not just where we stand. It's how we stand and what's keeping us going. It's easy to forget (*and neglect*) what allows us to stay active and on to our next venture. After all, the root of what keeps us stable, upright, and moving, is our feet. An anodyne, by definition, is something that brings you a sense of soothing and comfort. The comfort we desire (*and in some cases need*) is unique to each of us. We believe that you deserve shoes that will meet your comfort and style needs, and allow you to maintain an active, healthy, and productive lifestyle.

SHOE TECHNOLOGY

STYLE

With Anodyne, you genuinely want to wear your shoes. The materials we've used and designers we've engaged have succeeded in bringing you a product that will effectively address both your aesthetic and comfort needs.

COMFORT

The combination of our lightweight outsole, padded collar and tongue, and seamless microfiber lining provides the highest level of comfort for sensitive feet. We've designed all styles to prevent irritation and provide pain relief.

PROTECTION

All of our shoe styles offer extra depth (5/16 inch) to accommodate feet of all shapes and sizes. Additionally, we incorporate a protective toe box, strong shank, and rigid heel counter to help prevent any potential injury.

SIZING

We designed our shoes to fit fuller in the instep and toe box in order to add some additional room for your feet. If you're in between sizes, we suggest sizing down. For width conversions, see below.

SLIPPER TECHNOLOGY

No matter the occasion, type of weather, or time of year, wearing comfortable, proper fitting footwear isn't an option – it's a necessity.

Even when indoors, it's incredibly important to have the appropriate shoes or slippers on. Being barefoot is not an option. Something as simple as stubbing your toe or stepping on a random something can potentially lead to a serious foot complication.

For all your indoor adventures, or lack thereof, our slippers are designed to support you every step of the way.

IDEAL FOR THE FOLLOWING FOOT CONDITIONS:

SANDAL TECHNOLOGY

Sandals are the oldest known type of footwear (estimated to be over 10,000 years old). They're the perfect option in warm weather and are always an easy choice when looking for something to slide on or slip off. Although we love the convenience of wearing sandals, they typically don't offer the appropriate level of support, adjustability, and comfort that our feet require.

We've changed that.

Through the culmination of years of research and development, we've meticulously designed a distinctive collection of sandals with maximum adjustability, unparalleled support, and supreme comfort.

IDEAL FOR THE FOLLOWING FOOT CONDITIONS:

Plantar Fasciitis
Heel Pain/Heel Spurs
Foot Soreness
Flat Feet
Pronation/Supination

DIABETIC SOCKS

NO. 9 NO SHOW SOCKS

Meticulously designed with diabetics in mind, our socks are the perfect combination of comfort, fit, and functionality. When you wear our socks, you may not think about the ergonomics of the construction, the anatomical contours of the weave, or the functionality of the materials, but you'll know they are the best socks you've EVER worn.

WE DIDN'T INVENT THE SOCK. WE JUST PERFECTED IT.

BUNION SOCKS

NO. 108 QUARTER LENGTH BUNION SOCKS

Specifically designed with bunion relief in mind, our bunion socks are the perfect solution for those looking for additional comfortability and support. Our bunion socks are anatomically designed with a split-toe construction, impact-absorbing padding, and light gradient arch support to help correct natural alignment and offload pressure/friction in the bunion area of your feet.

CRAFTED FOR COMFORT. DESIGNED FOR RELIEF.

SOCKS

MULTI DENSITY ORTHOTIC TECHNOLOGY

Whether at a desk or on your feet. Walking or running. Whatever the activity, the root of what keeps you stable, upright, and moving are your feet. The inserts inside of your shoes are the single most important aspect affecting that comfortability and support. Engineered to provide the perfect combination of cushion, support, and stability, our Multi Density Orthotics will help you move more easily throughout your day. Your feet need to be comfortable and supported, so why settle for good enough when you can have the best?

MULTI LAYERED CONSTRUCTION

TOP COVER

Low shearing, durable top layer

FOREFOOT PADDING

Offloads pressure in metatarsal area to improve comfort and reduce foot fatigue

CONTOURED ARCH

Allows for optimal support and corrects ankle alignment

SUPPORTIVE SHELL

Improves foot and ankle stability

CUSHIONED BASE

Provides full contact support

HEEL PADDING

Shock absorbing foam helps to reduce heel pain

IDEAL FOR THE FOLLOWING FOOT CONDITIONS:

Plantar Fasciitis
Heel Pain/Heel Spurs
Foot Soreness

Flat Feet
Pronation/Supination

INSERTS

CUSTOM INSERTS AND PARTIAL FOOT TOE FILLERS

Hand-crafted by our lab staff and based on the exact contours of an individual's feet, our Custom Inserts and Partial Foot Toe Fillers allow for maximum foot support, total contact, and enhanced stabilization. Moreover, our custom inserts can be used to isolate and treat any particular irregularity that an individual's feet may have. We're capable of adding any sort of special accommodation to an individual's inserts, including the off-loading of certain areas, adding metatarsal pads, arch flanges, Morton's extensions, heel raises, etc.

IPHONE SCANNING TECHNOLOGY

Anodyne's latest 3D foot scanning app is a game-changer for custom orthotics. Having been at the forefront of 3D scanning for custom foot orthotics, we worked with our team of industry experts to further improve our technology. Anodyne providers can now use their iPhones to quickly and easily scan a patient's feet and order custom orthotics, all in a matter of minutes (*no additional equipment required!*). This streamlined process reduces lead times and makes custom orthotics more accessible than ever before.

APP BENEFITS:

UNPARALLELED USABILITY:

Anyone with an iPhone can use the app, regardless of their technical expertise

COMPLETE CONVENIENCE:

The app can be used anywhere, at any time

STREAMLINED ORDERING PROCESS:

Orders can be sent and received within minutes, reducing lead times

FREE SOFTWARE FOR ANODYNE SUPPLIERS:

No fees or click charges
