

GENUINE[®]
Dr. Comfort
EST.  USA

The Dr. Comfort® Difference

DR. COMFORT® PROUDLY CARRIES THE AMERICAN PODIATRIC MEDICAL ASSOCIATION SEAL OF ACCEPTANCE ON PRODUCTS AS INDICATED.

At Dr. Comfort® we understand the importance of foot care and are committed to helping people get back on their feet. With over 100 years of combined experience in foot care, footwear knowledge and pedorthic training, our team of educators know a thing or two about proper foot health.

Our shoes are available online and through healthcare providers who specialize in foot health. Proper footwear can help prevent more serious complications for those at risk. If you qualify, Medicare or other insurances may help cover the cost*.

*Your doctor or one of our providers can help determine if you qualify. To find a local provider visit drcomfort.com or call at 800.556.5572.

You must properly maintain and care for your shoes. Cease using immediately and call your doctor if you have any signs of blisters, pain, swelling or other indications which could cause damage to your feet.

Extra Depth Options

Deeper than a regular shoe to accommodate hammertoes, swelling and foot/ankle braces. Our Double Depth styles are even deeper

Extra Wide Widths

All of our diabetic shoes come in Medium, Wide and Extra Wide widths.

Easy On/Off Closures

Our shoes have a variety of closure styles like lace, no-tie elastic or hook-and-loop to help meet your dexterity needs.

Large Toe Box

The large toe box allows space to accommodate bunions, hammertoes, swelling and high instep.

Custom Orthotics Available

Visit a Dr. Comfort footwear provider to order custom-made orthotics or diabetic inserts for your shoes.

Stability

Revolutionizing the way you walk, our Stability outsole is designed to help provide enhanced support and prevent over pronation. Athletically-inspired shoes that are bold, comfortable and performance-focused. (PDAC Approved)

- Wider sole helps provide enhanced stability
- Increased width of toe box provides extra comfort and accommodation
- EVA and rubber outsole provides a layer under foot for added support and comfort
- Firm medial rearfoot helps prevent overpronation

CUSTOM FUNCTIONAL ORTHOTICS

Dr. Comfort® has historically led the industry with our diabetic products, now we have expanded our custom line-up to include a full line of Functional Orthoses. These styles of orthoses are designed to the unique specifications of the patient's foot and are built with specific functional objectives to help address biomechanical issues within the foot.

- Handcrafted designs to meet the vast majority of needs.
- EXOS® material available for quick in-office adjustments
- Total contact designs for an intimate fit, accommodations and control
- Lead times typically less than five days

ORDER WITH THE COMFORT SCAN MOBILE™ APP

Help give your office the cutting-edge technology to order custom orthotics for your patients in minutes! The Comfort Scan Mobile™ App was developed for an easy to use, fast turnaround method of ordering all custom products. With the app, providers are able to take a 3D scan of their patient's foot and submit the image and order form in a few simple steps.

Search Dr. Comfort in the app store and select Dr. Comfort Mobile Scan App.

EXOS® REFORMABLE ORTHOTICS

Our alternative to premium over-the-counter footwear inserts, EXOS® features our exclusive carbon nano tube shell that allows you to reform the orthotics at anytime for a more personal fit.
